DPR 531/25: CLERMONT DOLLAR GENERAL (PRIMARY); a development plan review; 1.936 acres; Lincoln Township; 20-16-2E; located at 10919 E. US Hwy 136 – West of N. Raceway Road (Andrew Rossell – AR Engineering, LLC.)

Mr. Dombrosky mentioned this case was continued at the Drainage Board this morning after their primary review had some concerns. There is no issue with our site review. We have pointed out modifications required as it is and we can approve the primary. The petitioner is aware they will have to come back if there are any issues with the Drainage Board and any other modifications that will need to take place.

Joe Leonard – Second Circle Investments, LLC., 14137 Warbler Way North, Carmel, IN

Mr. Leonard is here to present a 10,000 square foot Dollar General Market; he has been speaking with Brian and Tim regarding the site plan and has requested few modifications architecturally that are out of their control.

Mr. Dombrosky explained the two modifications requested by the petitioner. The ground floor façade requires 75% transparency, and the second one is the metal material that is not allowed in GB. Mr. Dombrosky pointed out the changes that were made and felt they were appropriate. The ground floor is pedestrian-oriented, site layout and parking lot are split evenly. Three different materials have been used, and the roof remains to be the biggest part of large metal surface. Town of Claremont has also requested that the landscaping would be varied, to include oak and linden tree species from their approved list. Mr. Dombrosky recommends approval.

Mr. Palmer opened and closed the public hearing.

Mr. Whitaker motioned for approval of DPR 531/25: Clermont Dollar General (Primary) subject to staff recommendations with the condition of diversity of tree species within the approved list and requested modifications. Mr. O'Riley seconded the motion.
