☐ Don't ask me again for two-factor authentication. ⓘ

Protect your voter information with two-factor authentication, another way to keep your information secure. Two-factor authentication, or 2FA, is a form of extra protection for online accounts, including your voter information. It requires you to verify who you are in two ways - for example, entering your personal information and a code sent to your email account or mobile number.

Two-Factor Authentication is not an option for voters who register without providing an Indiana Driver's License or Identification Card issued by the Indiana Bureau of Motor Vehicles. If you choose to submit a new voter registration form and include your Indiana Driver's License or Identification Card, you will be able to enable Two-Factor Authentication.

TWO-FACTOR AUTHENTICATION FUNCTIONALITY IS OPTIONAL.

5. Scroll down to the bottom of the page and click on: Print Voter Acknowledgement Card
