Protect Our Water Quality

When soil is left bare, rain displaces it, and it often ends up in creeks and ponds. Sediment is the number one pollutant by volume of surface waters in the United States.

Sediment in streams causes numerous problems.

Per IDEM's Construction Stormwater General Permit, all construction that results in the disturbance must follow all of the guidelines of the general permit, and any requirements of the local MS4 (see below for contacts).

Avon	<p>Betsy Porter, MS4 Coordinator bporter@avonindiana.gov (317) 272-0948</p> <p>Drew Wilson, Inspector dwilson@avonindiana.gov (317) 272-0948</p> <p>Eli Scott, Inspector escott@avonindiana.gov (317) 272-0948</p>
Danville	<p>Barry Lofton, Director of Utilities blofton@danvillein.gov (317) 745-4180</p>
Brownsburg	<p>Steve Fletcher, Building Commissioner sfletcher@brownsburg.org (317) 852-1128</p>
Pittsboro	<p>Chris York, MS4 Coordinator cyork@townofpittsboro.org (317) 339-5092</p>
Plainfield	<p>Shannon Swan, MS4 Coordinator sswan@townofplainfield.com (317) 745-5172</p> <p>Cory Gibbs, Stormwater Manager cgibbs@townofplainfield.com (317) 754-5171</p>
