

WHISPERING WINDS PRECON

The Hendricks County Surveyor's Office is looking to get quotes for a project in the Whispering Winds subdivision. I have included a job site aerial and below a scope of work.

1. Mow/brush cut all of the dry detention basin (approx..90ft by 300ft area).
2. Remove all trees/overgrowth around the 4 stormwater outlets. Apply tordon chemical to any cut trees.
3. All trees and overgrowth will be hauled away.
4. Fix any damaged outlets and finish grade all of the disturbed work areas with grass seed and straw.

I will be doing a walkthrough on 8/13/25 at 1:45pm. Please let me know if you will be attending. I Would like to have sealed quotes returned to me by 8/25/25to be opened at the 8/26/25 Drainage Board. This project will have a 30 day completion date from the time the lowest bidder is notified. We will meet at 1402 James Dr Avon. Please let me know if you have any questions.
