

Energy Efficiency and Conservation Block Grant

HENDRICKS COUNTY has received a Block Grant from the Department of Energy in the sum of \$546,900.00

1/10/10 Report

The funds were received on 11/17/09 and are to be used for the following purpose: Energy Efficiency evaluation and recommended improvements to County Buildings, namely the County Court House and Government Center. The goal of the proposed improvement project is to reduce energy consumption from both electrical power and natural gas.

A presentation has been made to the County Commissioners on a proposed plan to do an energy audit on the buildings. The findings of the audit will then be presented to the Commissioners for their selection from the recommended improvements. Retro-fitting windows, boiler replacement, temperature control device replacement and lighting fixture replacement are some of the eligible project uses for the awarded grant funds.

County Engineering staff, following the Commissioners direction, is in the process of preparing a Request for Proposal for the selection of the necessary Engineering Firms and Contractors to formulate and complete the project.

Quarterly reports and updates for the upcoming project will appear on the web page.
