

Background

Hendricks County has opted in to “Health First Indiana” public health initiative. The goal was to identify strengths and weaknesses and develop strategies to ensure that all Hoosiers have access to core public health services that help prevent disease and promote positive health outcomes.

Positions to be funded:

- Public Health Education
- Fatality Review
- School Health
- Sexually Transmitted Infection Prevention
- Chronic Disease Prevention/ Wellness
- Environmental Health
- Tobacco Prevention and Cessation
- Data, Metrics/ Improvement Efforts
- Resource Navigation
- Vital Records
- Financial/ Contract Management

Additional Fund Usage

The funding will position Hendricks County to work with partners to better improve access to services and address important health issues that impact residents’ life expectancy and health outcomes.

The Hendricks County Health Department values each of our partners and the work they do to improve our communities. We will continue to dedicate our time and efforts towards improving and utilizing community partnerships such as the Hendricks County Health Partnership, and look forward to the progress we will make together.
