

Hendricks County Surveyor

David L. Gaston, P.S.

Any state plane coordinates shown in the cornerstone books in the Hendricks County Surveyor's Office as well as any listed on 39 Degrees North GIS website are not exact coordinates and should not be assumed to be accurate. The coordinates listed represent an estimate that is used for the website in order to give a visual representation of the approximate location where a cornerstone exists. By signing this agreement, you are accepting that this information is based on map scale only. Along with accepting this, you are also agreeing that this information is for your use only and will not be shared with anyone else in a manner that will suggest to another that these coordinates are considered accurate. Once completed please submit a signed copied of this request to the Hendricks County Surveyor's Office.
