Affidavit for Agricultural Use of Residential Land in Production of Hay, Crops and Livestock

On May 6, 2015, Governor Pence signed into law Senate Enrolled Act 436-2015 ("SEA 436"), Section 6 of which amends IC 6-1.1-4-13. In assessing or re-assessing land, the land shall be assessed as agricultural land only when it is devoted to agricultural use, even if the land is purchased for residential use.

Agricultural uses include, but are not limited to, the uses that are defined as "agricultural use" in IC 36-7-4-616(b). **As an agricultural parcel, the land must be used to produce an agricultural product that originates from the land's productivity for the primary purpose of obtaining a monetary profit. (Examples of this would be planting and harvesting wheat, oats, barley, corn, etc. or cutting, bailing, and selling hay that is either native or supplemented with seed.)**

The affiant states owner/farmer understands The Hendricks County Assessor's Office must be contacted when the hay is being baled for inspection. Non-inspection when the hay is being baled deems the Affidavit for Agricultural Use of Residential Land in Production of Hay null and void. Inspection appointments are scheduled through the Assessor's Office at 317-745-9404.
