RE: VIDEO REQUIREMENTS OF NON-REGULATED DRAIN STORM
SYSTEMS

Dear Mr. Reitz,

It has been brought to my attention that the Drainage Ordinance requires the videotaping of the storm system only where they will be included in the Regulated Drain system. As you are aware, there are some systems that will not be included in the Regulated Drain system. Upon reviewing this with the inspectors in both offices, I feel that this needs to be clarified due to potential impact upon the residents in the development and those living in the offsite drainage area.

Therefore, beginning immediately, all storm drainage systems must be videotaped to insure proper workmanship as well as providing a basis for beginning any investigation within this area. It is realized that there will be occasions, short runs that may be visibly inspected, that videotaping may not be necessary but these will be handled on a case-by-case evaluation. If you have any concerns regarding the aforementioned items, please contact me.

Sincerely,

David L. Gaston P.L.S.

The OWNER will be billed on a regular basis for all services rendered above the estimated amount. Failure to pay any bill within thirty (30) days shall be grounds for termination of construction activities and cessation of issuance of building permit until such time as payment from the developer is forthcoming.
