- SIGNS OF BED BUGS · Small black fecal stains, blood stains, or bed bug skins on bottom of bed sheet or
- · Red, itchy rashes from bites. Bites are usually in linear form on torso, arms, neck and shoulders.
- · An offensive, sweet, musty odor from the bed bug scent glands.
- BED BUG IDENTIFICATION
- Eggs are tiny, white, and stick to surfaces. Nymphs are light colored and about 1/16"
- Adults are "rusty red" and about 1/4" long. They are wingless, oval shaped, and flat with six legs. They do not fly or jump.
- · Bed bugs mostly gather together.
